---

## Software Developer

---

Computer programming graduate dedicated to improving skills through hands-on learning and development work. Proficient in creating mobile and desktop applications. Adept at using Java, HTML5, JavaScript, SQL, and other programming languages to produce clean code. Well-organized and collaborative team player with strong communication and analytical abilities. Key strengths:

- Develop and implement a computing environment
- Implement and maintain a secure computing environment
- Effective communication with team members and clients
- Agile and project management principles and tools
- Troubleshooting and debugging code
- Validation testing for application development
- Research and implementation of new programming languages and practices
- SOLID object-oriented programming and design principles

---

## Technical Portfolio

---

<b>Programming</b>	Java, Python
<b>Web Development</b>	HTML, CSS, JavaScript, PHP, Node.js
<b>Frameworks</b>	Spring
<b>Mobile Development</b>	Android
<b>Virtualization</b>	VMware
<b>Database</b>	MySQL, Microsoft SQL Server, Oracle, MongoDB, Neo4j
<b>Integrated Development</b>	Eclipse, PyCharm, NetBeans, IntelliJ IDEA, Visual Studio Code
<b>Operating Systems</b>	Windows, GNU/Linux
<b>Office Tools</b>	Microsoft Office
<b>Containerization</b>	Docker, Kubernetes
<b>Data Analysis</b>	Weka
<b>Testing Tools</b>	Postman
<b>Tracking Tools</b>	Jira

---

## Education

---

### Computer Programmer Diploma

May 2020 – April 2022

Algonquin College, Ottawa, ON

- Specialized in program development strategies utilizing object-oriented modelling, database design, and database administration.
- Learned about programming languages like Java, Python, JavaScript, PHP, and SQL.
- Studied object-oriented analysis and design, operating systems, and coding in integrated environments, and learned how to debug, test, and maintain code.
- A software development project working with clients to develop a working application was completed in the final semester.

### HVAC Advanced Diploma

September 2015 – May 2018

Humber College, Toronto, ON

- Specialized in designing, installing, and servicing different types of energy systems.
- Trained in the service techniques and the installing of heating and air conditioning systems in residential and small commercial buildings.
- Learned about sizing, selecting, and maintaining equipment for building comfort in accordance with various industry standards.

---

## Work Experience

---

### Software Development Project

January – April 2022

Computer Programmer Diploma, Algonquin College, Ottawa, ON

- Worked with the client to analyze business needs, determine computer system requirements, model system designs, build prototypes, test code, and deliver final products following the agile software engineering methodology.
- Utilized project management tools to monitor progress and organize tasks.
- Initiated, mediated, and contributed to weekly meetings with other group members.
- Participated in interviews, technical reviews, presentations, and the preparation of technical reports along with other group members.
- Presented and demoed the final product to the client.

**Environment:** Java, libGDX, IntelliJ IDEA, Jira, Discord, Microsoft Word, Microsoft Excel, Microsoft PowerPoint, Microsoft Outlook

### Oil Change Technician

September 2020 – April 2022

Mr. Lube, Kingston, ON

- Performed lube, oil, and filter changes.
- Removed, installed, rotated, and balanced tires.
- Maintained neatness/cleanliness of bays through daily inspections.
- Maintained company owned equipment and tools daily after each use.

Take 5 Oil Change, Burlington, ON

August 2019 – July 2020
